

V Iberoamerican Congress on Geometry
Pucón-Chile
10 - 13 December 2010
Third Announcement

Special Sessions.

The committee is very pleased to invite you to participate in the Congress by submitting an abstract to the appropriate session coordinator.

Session coordinators

Riemann surfaces	Angel Carocca (acarocca@mat.puc.cl) Gabino González-Diez (gabino.gonzalez@uam.es)
Algebraic surfaces	Michela Artebani (martebani@udec.cl) Igor Dolgachev (idolga@umich.edu)
Abelian varieties and Theta functions	Esteban Gómez-González (esteban@usal.es) José María Muñoz-Porras (jmp@usal.es)
Kleinian groups	Rubén Hidalgo (ruben.hidalgo@usm.cl) Jane Gilman (gilman@andromeda.rutgers.edu)
Moduli problems	Anita M. Rojas (anir Rojas@uchile.cl) Herbert Lange (lange@mi.uni-erlangen.de)
Higher dimensional Algebraic Geometry and Applications	Carolina Araujo (caraujo@impa.br) Antonio Laface (alaface@udec.cl)
Teichmüller theory	Dragomir Šarić (dragomir.saric@qc.cuny.edu) Nikola Lakic (nikola.lakic@lehman.cuny.edu)

The Conference website <http://www.geometry.cl> contains a list of confirmed plenary speakers as well as local information. A registration form will soon be available.

Funding.

Unfortunately funding does not allow us to cover travel expenses, but efforts are being made to secure registration and local expenses for some participants.

For further questions please write to info@geometry.cl
